Art Unit: 1714

1. The amendment of 7/17/06 has been entered. Claims 1-30 are pending.
2. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The term "high molecular weight sulfonic acid" in claims 1, 6, and 24 is a relative term which renders the claim indefinite. The term "high molecular weight" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is therefore unclear what is encompassed by the recitation "high molecular weight".

3. Claims 1-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A. The newly amended claims recite "a high molecular weight sulfonic acid". The applicant's representative references the originally filed specification paragraphs 9, 10, and 16 for basis for this newly recited limitation and notes the disclosed alkylbenzene sulfonic acids. There is neither basis for the recitation "high molecular weight" nor basis for broadening "alkylbenzene sulfonic acids" to the larger genus "sulfonic acids" which encompasses many more things than alkylbenzene sulfonic acids. This newly added scope is new matter. Furthermore, cancellation of the amount of the prior claimed alkylbenzene sulfonic acid now makes the claims read on amounts outside the previously recited amounts of

Art Unit: 1714

alkylbenzenesulfonic acid and these newly added amounts are not supported by the originally filed specification and are new matter.

4. Claims 1-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraphs, set forth in this Office action.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 571-272-1121. The examiner can normally be reached on Monday to Thursday from 10 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
